The warehouse shall have executed Warehouse Lender Representatives and Covenants regarding bailee letters, HMFA #725 prior to requesting that the Agency accept a bailee letter.

(c) As of the Delivery Date:

By acceptance of payment for each Mortgage Loan on its respective Purchase Date, the Seller shall be deemed to have represented and warranted that all such conditions will have been met as of the respective dates set forth above.

- 2.102 **Purchase Price.** The purchase price of Mortgage Loans to be acquired by the Agency is set forth in the applicable Term Sheet.
- 2.103 **Permissible Fees.** In addition to the permissible points, the fees collected from the Mortgagor must not exceed the actual out of pocket expenses incurred in originating and closing the Mortgage Loan, plus a \$100 application fee. Items included as out of pocket expenses are limited to the cost of credit reports, appraisals, flood certification and a review of documents by an outside attorney.
- 2.104 **Points and Other Fees.** Seller shall charge points on Mortgage Loans specified in the applicable Term Sheet. Seller shall collect a one (1) percent fee at the time the Mortgage Loan application is taken, with the balance, if any, to be paid at loan closing. The fee is refundable to the applicant only if the Mortgage Loan is refused by either the Agency, Mortgage Insurer or Seller. One half of the non-refunded fee must be remitted to the Agency if the Mortgage Loan does not close. Seller may retain the remainder as compensation for processing expenses incurred. Applicant must sign the Mortgage Loan Reservation Acknowledgment (HMFA 306) which indicates that the one percent fee is non-refundable unless a loan is rejected for credit or property reasons.
- 2.105 **Downpayments.** The Seller shall make available conventional loans with 5% downpayments provided that the downpayments are in conformance with the downpayment requirements set forth in Section 3.201 and provided the appropriate MI is in full force. Lesser downpayments will be acceptable on FHA insured loans, VA loans, RECD loans, the Community Homebuyers Program and certain other loans for which the Agency and mortgage insurers permit.
- 2.106 **Condominium Financing.** The Seller shall make available loans for condominiums provided that the condominium financed is in conformance with the requirements set forth in Section 3.406. The Seller must also review the condominium documents and sign the Agency's Condominium Warranty. If FHA or VA loan, projects must be approved by HUD before loan application is taken. Loans guaranteed by RECD must be in compliance with RECD guidelines.

2.107 Advertising Standards. Newspaper, radio or television advertising is an excellent method of informing the public of the availability and benefits of the Agency loans. Certain guidelines are required by the Agency for such advertisements.

- (a) Ads should indicate the benefits of Agency loans: Lower interest rate, low downpayment, maximum term, as well as the fact they are available throughout the State of New Jersey.**
- (b) Ads should be directed toward homebuyers rather than home sellers for example, phrases similar to "now is a good time to sell while rates are low...." should not be used.**
- (c) If a Seller is advertising Agency loans plus its other loans or services, the ad must clearly indicate that the terms for the Agency loans refer to those loans only. Advertising of Agency loans should be separate and distinct from other advertising of lending services within the same ad. For example, a headline which features the lower interest rate should not be used if it implies that such rate applies to other loans offered by the institution.**
- (d) Advertisement should not include the statements "no broker's fees," or "Government Program" (except as to specific reference to the New Jersey Housing and Mortgage Finance Agency).**
- (e) All advertisements which reference the Agency's mortgage program(s) must include the equal housing opportunity logo and indicate that the sponsor is an equal opportunity lender.**

SECTION 2.2 DISTRIBUTION OF FUNDS

- 2.201 Application Process:** Sellers shall distribute loan applications and applicable brochures (see Term Sheet) and begin making reservations on or after the starting date of the program on a first come, first served basis.

To qualify for a reservation of funds, the applicant must meet the following requirements.

- (a) Must provide a bona fide contract of sale executed by both the buyer and the seller of the property. The contract of sale must reflect a purchase price that is within the applicable purchase price limit. In case of FHA 203(b) insured loans, the contract must include a mortgage contingency clause. In addition, the contract must contain an FHA amendatory clause in its contract or as an addendum.
- (b) Must provide proof of income (pay stubs or Internal Revenue Service tax return form 1040) which appears to reflect the applicant's ability to meet the applicable income limits and to pay the anticipated monthly debt service on the Mortgage Loan.

- (d) Must sign the Mortgage Loan Reservation Acknowledgment Form (HMFA 306).
- (e) Must be a first time homebuyer except in a Target Area.

- 2.202 Reporting of Loans in Process.** After Seller has prescreened an applicant for program eligibility and has taken a Mortgage Loan application, an authorized caller of Seller must telephone the Agency to report the loan in process and obtain a loan processing number. By reporting the loan the Seller has formally completed the reservation process.

The telephone number to obtain a loan processing number is **(609) 278-4182**. This phone station will not be available to callers for general or loan information, but will only accept reports of loans in process:

- (a) In order to reserve funds, Seller will need to provide the following information:
 - * name of caller

- * name of each applicant
- * property address
- * zip code
- * county
- * social security number(s)
- * sales price
- * estimated mortgage amount
- * target or non-target loan
- * new or existing property
- * multiple, single family dwelling or condominium
- * condominium project name

- (c) Seller must notify the Agency in writing of any cancellation within five (5) business days. A copy of adverse action or consumer disclosure letter sent to the applicant must accompany cancellation.

2.203 **Timely Reporting of Loans In Process.** In order that the Agency can monitor the timely distribution of funds, all loans in process must be reported either on the same or on the next business day following the date the Mortgage Loan application is taken. Under no circumstances should the lender take more than 48 hours to register a loan.

2.204 **Reservation Period.** Reservations of funds will be held 90 days from the date of the initial reservation (120 days for Purchase Rehabilitation Loans). Loans **MUST** be submitted for underwriting before the 90 day expiration date (120 days for Rehabilitation Loans). Failure to submit the loan for underwriting will result in the automatic cancellation of the loan and remittance of 1/2 point, if applicable.

At times, the Agency reserves the right to change the number of days outlined above. Lenders will be notified accordingly.

PAGE 14 INTENTIONALLY LEFT BLANK

PART III MORTGAGE LOAN ORIGINATION**SECTION 3.1 BORROWER ELIGIBILITY REQUIREMENTS.**

3.101 No Corporate Ownership. Mortgagor must be an individual.

3.102 First Time Homebuyer. Unless the Mortgage Loan is made in a Target Area, the Mortgagor shall not have had a present ownership interest in a principal residence at any time during the three years prior to which the mortgage is executed. The three years are considered tax reporting years only. Date of sale of previously owned property is not considered.

For purposes of this section, interests which constitute present ownership interests include the following: fee simple interest, a joint tenancy, a tenancy in common, or tenancy by the entirety; the interest of a tenant-shareholder in a cooperative; a life estate; a land contract; and an interest held in trust for the Mortgagor (whether or not created by the Mortgagor) that would constitute a present ownership interest if held directly by the Mortgagor. Interests which do not constitute present ownership interests include the following: a remainder interest; a lease with or without an option to purchase; a mere expectancy to inherit an interest in a principal residence; the interest that a purchaser of a residence acquires on the execution of a purchase contract; and an interest in other than a principal residence during the previous three (3) calendar tax years.

3.103 Tax Returns Required. To establish that the Mortgagor meets the requirements of 3.102, Seller shall examine true and executed (signed) copies of the Mortgagor's federal income tax returns for the previous three (3) years and determine whether the Mortgagor has taken a mortgage interest or a property tax deduction for his principal residence. If the Mortgagor cannot provide the documents at time of Mortgage Loan application, copies should be obtained from the Internal Revenue Service on IRS Form 4506, Request for Copy of Tax Return.

In cases where the Mortgagor filed Form 1040, Seller must obtain the Form 1040 plus all schedules. If the Mortgagor filed Form 1040A or Form 1040EZ, a verifying letter from the IRS will be required and full copies of their State Income Tax Returns will be required to determine if the Property Tax Deduction was taken. Where the Mortgagor was not required to file federal or state income tax returns, Seller should obtain a sworn statement from the Mortgagor to that effect which further attests that the Mortgagor had no interest in a principal residence during the past three years.

3.104

Income Limits. To the extent that the applicable Term Sheet includes income limits, an applicant shall be eligible for a Mortgage Loan if the applicant has an annual gross household income at the time of signing the Mortgage Loan application not in excess of the limit or limits established in the applicable Term Sheet. Income at the time of closing must not be over established income limits.

(a) Calculating Annual Gross Household Income.

For the purpose of determining income eligibility, the Seller shall use the annualized value of the applicant's current rate of monthly income. Annualized gross income is determined by multiplying gross monthly income by 12. Gross monthly income is the sum of monthly gross pay; any additional income from overtime, part-time employment, bonuses, dividends, interest, royalties pensions, Veterans Administration compensation, net rental income, etc. and other income (such as alimony, child support, public assistance, sick pay, social security benefits, unemployment compensation, income received from trusts, and income received from business activities or investments. Total gross household income is for all mortgagor(s) and any other person who is expected to live in the residence being financed and to be secondarily liable on the mortgage. This would include a co-maker who will occupy the subject property.

The income eligibility verification relied upon by the mortgagee cannot be more than 4 months old at the time of mortgage closing. If the mortgage closing does not occur within 4 months, current income verification will be required. If current household income exceeds the applicable income limits, the mortgage loan application will be rejected and any commitment issued by the Agency will be null and void.

For Mortgage Loans on Multiple-Unit Dwellings, anticipated monthly rental income shall be excluded.

(b) Verification.

The Seller shall verify income through current pay stubs and/or written verification from all reported income sources. The applicant's Internal Revenue Service tax return form 1040 from the previous year should also be used to verify income sources.

(c) Self Employed.

Where an applicant is self employed or is one of the principal owners of a business, the previous two years' Federal Income Tax Return shall be required as well as an audited profit and loss statement or a profit and loss statement from a CPA.

- 3.105 **Owner Occupancy.** The Mortgagor must within sixty (60) days of Mortgage Loan closing occupy the mortgaged property as his/her principal residence. In the case of Multiple Unit Dwellings, only one unit of such must be occupied as the principal residence of the Mortgagor.
- 3.106 **No Trade or Business.** Mortgagor must not use or intend to use any portion of the mortgaged property in a trade or business, as a vacation home or investment, except for rental units in a Multiple-Unit Dwelling.
- 3.107 **Requirements for Co-Signer.** A co-signer of the note, as permitted by Section 3.206, who will not have an interest in the property, is not required to meet the borrower eligibility requirements of Section 3.1.
- 3.108 **Affidavits and Acknowledgements Required.** A Mortgagor's Affidavit (HMFA 300) which attests among other things that the Mortgagor will meet the requirements of this Section 3.1 must be signed by the Mortgagor at the time of application. A separate affidavit will be required of the property seller.
- 3.109 **Other Real Estate Owned.** The Mortgagor may not own or have an interest in other real estate at time of loan closing or during the immediately preceding three years.

Exceptions will be considered only under the following circumstances:

- (a) Real estate is a vacation home not used as a primary residence by the Mortgagor.
- (b) Real estate is vacant land.
- (c) Real estate is non-residential, commercial or industrial in character. When other real estate is owned, under exception (a) or (b) of the aforementioned acceptable situations, Seller will be required to obtain a certification from the Mortgagor indicating the type of property owned and the circumstances under which it is being held.

- 3.110 **Seller's Review and Warranty.** Seller must verify the information contained in the Affidavits and required by this Section 3.1 as part of the processing for Mortgage Loan approval.
- 3.111 **One Mortgage Reservation Only.** Applicants may not have more than one current reservation for an HMFA Mortgage loan.
- 3.112 **Employee Mortgage Loan.** Employees of Seller are eligible for Agency financing, however, they may have no part in the processing, underwriting, and/or closing of their own file.

SECTION 3.2 CREDIT AND PROPERTY UNDERWRITING REQUIREMENTS.

3.201 Cash Downpayment - Conventional Loans. The maximum loan-to-value ratio on all conventionally insured Mortgage Loans shall not exceed ninety-seven percent (97%), or such greater percentage as may be permitted by the agency and mortgage insurers.

- (a) The excess of the purchase price of the property over the original loan amount of the Mortgage Loan must be paid from Mortgagor's liquid assets or cash equity. Seller must determine that the Mortgagor has sufficient cash assets by utilizing the Verification of Deposit Form (FNMA 1006). Seller will be required to send this form to the Agency with the Prior Approval documentary package.

No secondary financing may be used for the downpayment or closing costs in the consummation of the loan, except with the approval of the Agency.

- (b) Sellers will be required to obtain written verification of all deposit monies being held for the property purchase.
- (c) Funds which the Mortgagor receives as a gift must be supported by a statement from the donor confirming the gift and stating that repayment is not expected. A gift cannot be considered unless the donor is a close relative, a close friend with a motivating interest in the Mortgagor, the Mortgagor's employer, or a corporation established for humanitarian or welfare purposes. The donor should have no connection with the property seller or the Seller.
- (d) Closing costs may be paid by either the Mortgagor or the seller of the property.
- (e) Certain prepaid settlement costs must be paid by the purchaser of the property in order for the mortgage to be eligible for purchase. These costs include:
 - o interest charges covering any period after the settlement date;
 - o real estate taxes covering any period after the settlement date;
 - o Hazard insurance premiums; and
 - o the escrow accruals required for renewal of the mortgage insurance premium (unless the premium is being financed as part of the mortgage amount).

- (f) The maximum allowable contributions from interested parties, which depend on the loan - to- value ratio (or combined loan-to-value ratio, if subordinate financing is involved) are limited to
 - o 3% of the lesser of the sales price or appraised value, if the LTV is greater than 90%;
 - o 6% of the lesser of the sales price or appraised value, if the LTV is 90% or less.

Cash Down Payment - FHA Insured Loans. The maximum loan-to-value ratio on all FHA insured loans will be in accordance with those permitted for the 203(b) insurance program.

- (a) The downpayment can be gifted or borrowed in accordance with the rules governing the FHA 203(b) insurance program. The source of the down payment must be fully documented and supported by written verifications.
- (b) Closing Costs may be amortized or gifted in accordance with the rules governing the FHA 203(b) insurance program.
- (c) All escrow payments must be made from borrower's liquid assets.
- (d) The maximum mortgage for FHA loans is the lesser of FHA mortgage limits or the applicable purchase price under the bond program.

Cash Down Payments - VA Loans. The maximum loan-to-value ratio on all VA guaranty loans will be in accordance with those permitted by the Veterans Administration.

- (a) The source of the downpayment can be gifted or borrowed in accordance with the rules governing the VA insurance program.
- (b) Funding of closing costs and escrows will be in accordance with the rules established by the VA.
- (c) The maximum mortgage permitted for VA loans is the lesser of VA requirements or the applicable purchase price under the bond program.

Cash Down Payments - RECD Loans. The maximum loan to value ratio on all RECD guaranty loans will be in accordance with those permitted by the Rural Economic and Community Development Service.

- (a) The source of the downpayment can be gifted or borrowed in accordance with RECD guidelines.

- (b) Closing costs and escrows will be in accordance with RECD guidelines.
- (c) The maximum mortgage permitted is the lesser of RECD requirements or the applicable purchase price under the bond program.

3.202 **Secondary Financing.** In cases where the Mortgagor has fulfilled the down payment requirement specified in 3.201, the Mortgagor may request approval for financing from another source such as a Community Development Block Grant deferred payment loan. The secondary financing terms must be specified in the loan application and be approved by the Agency.

3.203 **Mortgage Insurance.**

- (a) Mortgage Insurance issued by an MI is required on all Home Buyers Program (HBP) loans where the loan-to-value ratio is greater than 80%. The coverage required is indicated on the applicable Term Sheet. Premiums may be financed provided the final loan-to-value does not exceed 100% or greater as may be permitted by the Agency and the mortgage insurer. The MI coverage is based on the total LTV ratio, not the borrower's downpayment. Borrowers may finance either the entire premium or only the premium for the first year's coverage. If the full premium is financed, the initial cost must be for the life of the loan. No automatic cancellation of PMI is permitted. No insurance coverage may be canceled without prior written consent from the Agency. FHA 203(b) insurance is acceptable in lieu of private mortgage insurance. The terms and conditions of the insurance will be in accordance with the 203(b) program guideline. ONLY participating lenders with Direct Endorsement Approval may originate Agency loans with FHA insurance.
- (b) **MI Declination.** Sellers must notify the Agency of any refusal by an MI to provide the required coverage for any reason other than unsatisfactory credit.
- (c) **Full Force and Effect.** As of the closing date, such insurance must be in full force and effect, the benefits of such mortgage insurance must run to the Agency and nothing must have been done or omitted to impair the rights of the Agency thereunder
- (d) **No Commissions.** In connection with the placement of such mortgage insurance and to Seller's knowledge, the MI shall not cause or permit any consideration or thing of value (other than the protection provided by its mortgage insurance), including but not limited to, any commission, fee or other compensation to be paid to or received by: (i) any mortgage lender, the deposits or accounts of which are insured by the Federal Deposit Insurance Corporation; (ii) any officer, director or employee of such lender or any members of the immediate

family of such officer, director or employee; (iii) any insurance agency, corporation (other than the insurer), partnership, trust or other business entity (including any service corporation, whether organized for profit or otherwise) in which an insured lender or any officer, director, employee or any members of the immediate family of such officer, director or employee has any direct or indirect ownership or financial interest; or (iv) any designee, trustee, nominee or other agent or representative of any of the foregoing. This requirement applies to any commission, fee or other compensation paid or received regardless of whether such commission, fee or other compensation was paid or received before or after the mortgage insurance placed in connection therewith was written.

- (e) **FHA Mortgage Insurance Cost.** The maximum insurable mortgage is based on the lower of the statutory dollar limit or the appropriate loan to value ratio or the applicable purchase price under the bond program whichever is less.
- (f) **VA Mortgage Guaranty.** The maximum mortgage guaranty permitted by VA or the applicable purchase price under the bond program whichever is less.
- (g) **RECD Mortgage Loan Guarantee.** The maximum mortgage guarantee permitted by RECD or the applicable purchase price under the bond program whichever is less.

3.204

Credit Underwriting Guidelines. Evaluation by Seller of each Mortgagor's creditworthiness must be done on a case-by-case basis. All standards for determining effective income must be applied to each Mortgagor in the same manner. The following are guidelines to indicate proper considerations in ascertaining that the Mortgagor's creditworthiness is sufficient. These guidelines are not intended as requirements or rules which must apply in all cases; however, the Agency considers them to be sound general principles in underwriting credit.

- (a) **Monthly Housing Expense-to-Income Ratio.** The Agency will normally require that monthly housing expense (first mortgage payments plus escrows) not exceed 28% for a conventional loan, 29% for a FHA insured loan, an RECD guaranteed loan or 33% for Community Home Buyer Program of Mortgagor's "stable monthly income," as defined in clause (e) below.

If Mortgagor is purchasing a condominium or PUD unit, the monthly condominium or PUD fee (homeowners' association dues) for common elements/property charges and maintenance, excluding unit utility charges, must be included in the monthly housing expense when calculating the above ratio.

- (b) **Monthly Debt Payment-to-Income Ratio.** The Agency will normally require that the total amount of monthly housing expense (referred to in clause (a) above), plus all other monthly payments on all installment debts having remaining terms of more than seven months do not exceed 36% for a conventional loan 41% for an FHA insured loan, an RECD guaranteed loan or 38% for Community Home Buyer Program of Mortgagor's "stable monthly income." Alimony and child support are considered long term monthly obligations, unless such obligations terminate in less than seven (7) months.
- (c) **Monthly Housing Expense-to-Income and Debt-to-Income Ratio for VA Loans.** The maximum Debt-to-Income Ratio is 41% provided there is sufficient residual income to satisfy the VA regulations.
- (d) **Compensating Factors.** There are many underwriting considerations that justify the use of higher debt-to-income ratios for conventional mortgages. When such factors exist, we do not object to the use of higher underwriting ratios for any mortgage. Generally, the lender should be more flexible in using a higher ratio for the monthly housing expense to income comparison than it uses for the total obligations-to-income comparison. A higher monthly housing expense-to income ratio or a higher total obligations-to-income ratio (or both) may be acceptable for mortgages that have loan-to-value ratios of 90% or less, if the borrowers
- o are making a large downpayment toward the purchase of the property, or have a strong equity position in a property that is being refinanced;
 - o have demonstrated an ability to devote a greater portion of income to basic needs like housing expenses;
 - o have demonstrated an ability to accumulate savings and to maintain a good credit history or a debt-free position;
 - o have potential for increased earnings and advancement because of their education or job training, even though they have just entered the job market;
 - o have net worth substantial enough to evidence their ability to repay the mortgage;

In order for the use of higher qualifying ratios to be approved for mortgages that have loan-to-value ratios above 90%, not only must the borrowers fall into one of the above categories, but also one of the following conditions must exist:

- o The borrowers have financial reserves that can be used to carry the mortgage debt. Part of the savings must be in the form of liquid assets that equal at least two months of PITI payments;
- o The borrowers have demonstrated an ability to devote a greater portion of their income to housing expenses (but the housing expense for the subject mortgage should not exceed the borrowers' previous housing expenses), excellent payment histories on any prior mortgage obligations, and acceptable credit histories;

Lenders must support and document all decisions regarding the underwriting ratios - whether they rely on the above compensating factors or others.

- (e) **Stable Monthly Income.** Stable monthly income is Mortgagor's gross monthly income from primary employment base earnings plus recognizable secondary income. Secondary income of any Mortgagor, such as bonuses, commissions, overtime, or part-time employment, should only be recognized in "stable monthly income" if such items of secondary income are typical for the occupation, substantiated by Mortgagor's previous two years' earnings and continuation is probable based on foreseeable economic circumstances.

On Multiple-Unit Dwellings, the Agency recognizes that rental income will be generated from the tenant occupied units. The Agency defines net rental as the property's gross monthly rental, less allowance for the owner occupant's unit, vacancy factor and operating expenses. On all Multiple-Unit dwellings the Agency requires that Seller complete an Operating Income Statement (FNMA 216) on the property. Seller will be required to send this form to the Agency with the Prior Approval documentary package. Rental income should not exceed that which is reasonable and customary for the area in which the property is located as defined by the appraisal report.

All Mortgage Loan applicants must disclose income from alimony, child support or maintenance payments and Seller agrees to consider such payments as income to the extent that they are likely to be consistently made. Factors which Seller may consider in determining the likelihood of consistent payments include, but are not limited to, whether the payments are received pursuant to a written agreement or court decree; the length of time the payments have been received; the regularity of receipt; the availability of procedures to compel payment; whether full or partial payments have been made; the age of any child; and the creditworthiness of the payor, including the credit history of the payor where available to Seller under the Fair Credit Reporting Act or other applicable laws. Seller agrees to submit to the Agency evidence adequate to support its determination.

Items such as education, training, technical skills, occupation and past employment history should be taken into account on a case-by-case basis in determining "stable monthly income". Income necessary to qualify a Mortgagor must be verified by a Verification of Employment Form (FNMA 1005). If there has been a change in employment within the past two years, an additional verification must be obtained confirming the Mortgagor's previous employment. In cases where Mortgagor is self-employed, the minimum acceptable documentation to verify income would be profit and loss statements from the last year end prior to application for the Mortgage Loan and tax returns from the previous three years.

(f) **Mortgagor's Credit Reputation.** In addition to the above guidelines, Seller must determine that Mortgagor's housing payments plus other obligations do not constitute an undue strain on Mortgagor's ability to make all such payments promptly and that a credit reputation is evidenced which would be commonly acceptable to private institutional mortgage investors. The following additional guidelines should be considered:

1. **Slow Payments Shown On Credit Report.** If Mortgagor has a recent history of slow payments on a previous mortgage(s), the Agency will require a detailed, written explanation. Slow payment of other debts constituting a pattern of late payments, or a payment pattern which appears to indicate slow payments of debts related to basic needs while prompt payments were made on debts related to less important needs of the Mortgagor and Mortgagor's family, must also be satisfactorily explained.
2. **Bankruptcy.** The bankruptcy must have occurred prior to two (2) years of applying for HMFA financing. The bankruptcy must have been discharged and the Mortgagor must have established a satisfactory credit record in this time period.
3. **Default on Loans.** Any loan which is in default or with a collection agency must be paid in full. Payment plans on defaulted loans are unacceptable, unless the borrower has made 12 monthly payments on the payment plan in a timely fashion.
4. **Judgments.** Must be paid in full.
5. Borrower may be considered for a mortgage if previously a defendant in a mortgage foreclosure if the proceedings were completed at least five (5) years prior to loan application. The borrower must have established good credit.

6. **Job Tenure; Change of Residence.** Three or more employment changes by Mortgagor within the previous five years, or four or more changes of residence within the previous six years must be satisfactorily explained.

(g) **Home Buyer Education.** These sessions are to be in compliance with the requirements of the mortgage insurer. At the time of loan submission for underwriting, the Certificate of Completion of the course should be in the loan file.

3.205

Credit Report. Each Mortgage Loan must have a written report meeting the following requirements:

(a) The credit report must be issued by an independent credit reporting agency acceptable to the Agency. The credit report must be a Factual Data Credit Report. Such report must verify all debts listed on the credit application including terms, balances and ratings. It must list all other debts discovered, in addition to all legal information, including without limitation, suits, judgments, foreclosures, garnishments, bankruptcies, and divorce actions, discovered by search of the public records. Any debt disclosed on the credit report and not indicated in the loan application must have a satisfactory explanation attached.

(b) For applicants, any portion of whose income is derived from a business in which the applicant has a proprietary interest, either solely or in partnership, Seller should also obtain a Business Credit Report to verify the credit reputation of the business as well.

NOTE: In addition to reviewing the files delivered by Seller, the Agency will also make test appraisals, spot check credit reports and make other checks in order to assure proper underwriting. In the event the Agency in its sole discretion determines that a credit report is inadequate, the Agency, reserves the right to declare as unacceptable the credit reporting source originating such report, in which event Seller agrees not to use such credit reporting source for future Mortgage Loans purchased by the Agency.

(d) Loans originated with FHA insurance must meet the FHA Credit requirements. It is the lender's responsibility to ensure that loans are in conformance with applicable HUD standards. Loans found not in compliance will not be purchased.

(e) For participants in the Community Homebuyers Program, a credit profile may be developed where no credit history has been established.

- (f) Credit documents must be no more than 120 days old on the date the note is signed. When the age of the documents is greater than we allow, the lender must obtain written verifications. The updated credit report must be a residential mortgage credit report.

3.206 **Co-Signer.** The use of a co-signer on the note is permitted in situations of short term employment, past delinquent credit experience and insufficient income provided that the primary Mortgagor(s) have reasonable prospect of making the proposed payments on their own accord. The co-signer's income may not be relied upon to meet the guidelines for housing expense to income or debt expense to income ratios or to determine whether the household falls within income limits, unless the co-signer intends to reside in the property.

3.207 **Buy-downs Permitted.** Interest rate buy-downs will be permitted subject to the following requirements:

- (a) The term of the buy-down period must not be less than one year or greater than three years.
- (b) The interest rate buy-down is not greater than three (3) percent. However, in any one (1) year the buy-down cannot exceed one (1) percent.
- (c) There are no references made to the buy-down plan in the note and mortgage instruments.
- (d) The coupon rate and monthly payments provided for in the note and mortgage instruments are shown exclusive of the buy-down subsidy.
- (e) The appraisal report adequately supports the estimate of value of the property and evidences that such financing practices are customary in the area.

Seller's should apply underwriting guidelines on the reduced monthly payment indicated for year two of the buy-down agreement.

A copy of the buy-down agreement and Seller's Warranty with regard to buy-downs must accompany the Prior Approval Submission Package.

A borrower who has a mortgage that is subject to an interest rate buydown plan should have a high likelihood of remaining in his or her home without experiencing a default; therefore, lenders should not use buydown plans to qualify a borrower who would not otherwise be able to qualify for the mortgage. The lender's underwriter should carefully evaluate the borrower's ability to manage the payment increases that will occur under the terms of the buydown agreement.

For all mortgages that are subject to interest rate buydown plans, the lender should use one or more of the following credit related factors to establish whether the borrower is likely to be able to handle the payment increases:

- o The lender should review the borrower's employment history and determine (based on its knowledge of the occupational opportunities in the local market) whether the borrower has a likely potential to experience income increases commensurate with the scheduled payment increase(s).
- o The lender should consider the borrower's ability to manage and adjust his or her financial obligations in a way that will allow allocation of a greater portion of his or her income toward the mortgage obligation. This flexibility can be demonstrated in several ways - (1) borrowers who have lower qualifying ratios should have more funds available to apply toward the scheduled payment increases, (2) borrowers who have either few long-term debts or long-term debts that do not extend beyond one or two years should have more funds to devote toward housing expense as those debts are paid off, and (3) borrowers who have an acceptable credit history and a demonstrated ability to accumulate savings should be able to have funds available as the payment changes occur, etc.
- o The lender should determine the amount of liquid assets that the borrower will have after closing to see if he or she will be able to use them to absorb the payment increases that will occur after the buydown period. This, in itself, should not be a limiting factor. For example, a borrower who does not have significant assets could still be considered favorably if he or she is making a large down payment or meets one of the two factors discussed above.

3.208

Appraisals

The property must have been appraised within the 12 months that precede the date of the note and mortgage. When the appraisal will be more than four (4) months old on the date of the note and mortgage - regardless of whether the property was appraised as proposed or existing construction, the appraiser must inspect the exterior of the property and review current market data to determine whether the property has declined in value since the date of the original appraisal.

- (a) **Appraisal Forms.** Seller's must supply an appraisal on one of the following applicable FNMA Appraisal Forms:

Single Family	FNMA	Form 1004	(revised 01/94)
Two-to-Four Family	FNMA	Form 1025	(revised 10/94)
Condominiums	FNMA	Form 1073	(revised 10/94)

Revised Statement of Limiting Conditions and Appraiser's Certification (Form 1004B) must be used in connection with all appraisals prepared for Agency loans.

Appraisals completed for property to be insured through FHA's 203(b) program must be in conformance with HUD's Valuation Guidelines.

- (b) Well, Septic, & Wood Infestation Certification.** The Agency requires satisfactory Well and/or Septic Certifications on all properties (other than those newly constructed) where the appraiser has indicated a well and/or septic system is present. A satisfactory termite certification will be required on all properties other than those newly constructed and mid-high rise condominiums using NPCA-1, Wood Destroying Insect Infestation Inspection Report.
- (c) Satisfactory Completion Certificate.** With respect to appraisals made subject to repairs, alterations or conditions, or subject to completion per plans and specifications, Seller must submit to the Agency, on the delivery date, a statement of satisfactory completion. This report shall be made after completion of repairs, improvements, alterations, conditions or construction, and must clearly state substantial compliance with all conditions or requirements as set forth in the original appraisal report of the mortgaged premises. This statement of satisfactory completion must be prepared by the original appraiser.

The Agency recognizes the fact that due to weather conditions, minor items not affecting livability, whether on or off site may be incomplete at the time of loan closing. This is acceptable to the Agency providing that the following requirements are met: the Seller assumes the responsibility for an escrow which is 1-1/2 times the estimated cost of the completion of the unfinished items, this amount is not to exceed \$7,500, unless the Seller first receives written approval from the Agency, Seller forwards a copy of the escrow agreement with the mortgage loan delivery package, and the Seller forwards to the Agency an updated statement of satisfactory completion when items are complete. The statement of satisfactory completion must be prepared by the original appraiser.

- (d) Appraisal Spot-Checks.** The Agency will be making spot-checks on appraisals. If an appraisal is found to be unacceptable, the Agency will issue a warning to the Seller. Should the Agency issue three (3) warnings on the same appraiser, the Agency reserves the right to declare as unacceptable the appraiser originating such appraisals, in which event Seller agrees not to use such appraiser for future Mortgage Loans submitted to the Agency. These spots will be done on a random basis as selected by the Agency.

- (e) **Appraisers.** The Agency does not approve specific appraisers; however an appraiser must be experienced in the appraisal of 1-4 family properties and must be actively engaged in such appraisal work. All appraisers performing appraisals for Agency loans will be required to be licensed by the State of New Jersey in accordance with P.L. 1991 c.68 and regulations promulgated thereunder.
1. **Discontinuance of Appraiser by Seller.** Seller shall inform the Agency immediately in the event Seller discontinues using the services of any appraiser who has made appraisals with respect to Mortgage Loans purchased by the Agency from the Seller.
 2. **Discontinuance of Appraiser by the Agency.** The Agency may, at any time, notify Seller that the Agency will no longer accept appraisals made by a given appraiser, and Seller shall not thereafter use such appraiser, with respect to Mortgage Loans purchased by the Agency.
 3. **Representations to Third Parties by Appraiser.** An appraiser must not make any representations to third parties that he or she has been, in any way, approved or qualified by the Agency, but may represent (where it is the case) that he or she has made appraisals for the Seller on Mortgage Loans accepted for purchase by the Agency.

PAGE 31 INTENTIONALLY LEFT BLANK

SECTION 3.3 MORTGAGE LOAN ELIGIBILITY.

Each Mortgage Loan delivered under the Mortgage Purchase Agreement must comply with the following requirements:

- 3.301 **No Refinancing.** No Mortgage Loan will be purchased by the Agency which was made for the purpose of refinancing an existing loan other than construction period loans, bridge loans or similar temporary initial financing (having a term of 24 months or less), or qualified rehabilitation loans.
- 3.302 **Interest Rate.** Each Mortgage Loan originated under Mortgage Program shall bear interest at the rate specified in the applicable Term Sheet.
- 3.303 **Fees.** With respect to each Mortgage Loan originated, the total discount fees shall not exceed the amount specified in the applicable Term Sheet. Either the Mortgagor or the property seller may pay the fees, but Seller should adjust the Annual Percentage Rate accordingly.
- 3.304 **Term.** The original term of a Mortgage Loan must not exceed 30 years, or such lesser term as is appropriate, given the character, economic life and location of the property.
- 3.305 **Amortization.** Each Mortgage Loan must provide, through regular monthly payments on the first day of each month, for full amortization by maturity. Amortization must commence not later than sixty-two (62) days after final disbursement by Seller of the Mortgage Loan proceeds.
- 3.306 **Origination.** Each Mortgage Loan must have been closed in Seller's name as lender. Seller is fully liable for all warranties and representations made to the Agency regardless of who does the origination of the Mortgage Loan. Furthermore, Seller is liable and responsible for compliance with RESPA and all consumer protection laws and regulations in effect at the time of the closing of the Mortgage Loan.
- 3.307 **Assumption.** The obligation to make payments due on any Mortgage Loan shall not be assumable unless written approval is received from the Agency. Each Mortgage shall contain a provision giving the Agency the right to accelerate the maturity of the Mortgage Loan upon transfer of ownership of the mortgaged property. Mortgage Loans may be assumed only if the assuming Mortgagor complies with the residence requirement, first time homebuyer requirement, income requirements and purchase price limitations. On Mortgage loans originally closed after December 31, 1990 and assumed prior to year nine (9) Recapture Provision apply to both the original Mortgagor and the assuming Mortgagor.

- 3.308 Recapture.** The Code requires a payment to the United States from certain Mortgagors with respect to Mortgage loans closed after December 31, 1990 upon sale of their homes financed by a Mortgage Loan, without regard to the date on which the applicable bonds were issued (the "Recapture Provision"). The Recapture provision establishes that under certain circumstances a portion of the amount determined to be the subsidy may be required to be recaptured during the year in which there is a disposition of the house. The recapture amount increases over the period of ownership, with full recapture occurring if the house is sold at the end of the fifth year. The recapture amount declines ratably to zero with respect to sales occurring in years six through nine. An exception excludes from recapture part or all of the subsidy in the case of assisted individuals whose incomes are less than prescribed amounts at the time of the disposition.
- 3.309 Mortgage Valid First Lien.** The mortgage securing each Mortgage Loan must constitute a valid first mortgage lien. The property must be free and clear of all encumbrances and liens prior to the lien of the mortgage and no rights may be outstanding that could give rise to such liens, subject only to liens of taxes or assessments which are not delinquent, building restrictions or other restrictive covenants or conditions, leases or tenancies whereby rents or profits are reserved to the owner, joint driveways, sewer rights, party walls, rights-of-way or other easements, or encroachments, provided that none of the foregoing materially affect the security for the Mortgage Loan. The note or bond evidencing the Mortgage Loan must be a legal, valid and binding obligation of the maker thereof, enforceable in accordance with its terms, free from any right of set-off, counterclaim or other claim or defense, and no part of the property may have been released from the mortgage. The terms of the Mortgage Loan must not be modified, amended, waived or changed, except as set forth in a recorded mortgage modification approved by the Agency. The seller shall require that appropriate Notices of Settlement be recorded prior to settlement and that the Mortgage be timely delivered for recording.
- 3.310 Leasehold Financing.** The Agency will consider financing Mortgage Loans on leasehold estates on a case by case basis to determine whether the security is sufficient to meet the Agency's obligations to its bondholders. At a minimum, the remaining term of the lease must be at least five years longer than the term of the Mortgage Loan and the cost of the leasehold must be nominal. A copy of the land lease must be submitted to the Agency for consideration.

Considerations the Agency will take in order to make a determination are:

- (a) the use of a leasehold must be common to the area;
- (b) marketability must not be effected adversely;
- (c) the land lease must be recorded;
- (d) assignment of the leasehold must be permitted without the permission of the lessor;
- (e) the Agency must be allowed the right to acquire in its own name or the name of its nominee the rights of the lessee upon foreclosure or assignment in lieu of foreclosure.

- 3.311 **Principal Amount Advanced; No Mandatory Future Advances; Outstanding Balance.** The full principal amount of each Mortgage Loan must have been advanced to Mortgagor in accordance with the direction of the Mortgagor or placed in a completion escrow account. At the time of delivery of a Mortgage Loan to the Agency, Seller forwards a copy of the escrow agreement and an updated satisfactory completion certificate when the items are complete (see Seller's Guide, Section 3.208 for certification requirements). Mortgagor must not have an option under the Mortgage Loan to borrow from Seller or any other person additional funds secured by the mortgage without the consent of the Agency. The outstanding principal balance of the Mortgage Loan must be as represented by Seller to the Agency and must be fully secured by the mortgage.
- 3.312 **Late Charge.** On Mortgage Loans purchased by the Agency, Seller shall only collect late charges on monthly installments not received within fifteen (15) days and shall not collect any late charges in excess of four percent (4%) of the late payment, as covenanted in the Note and Mortgage forms.
- 3.313 **Prepayment Charges.** There shall be no prepayment charges on any Mortgage Loan.
- 3.314 **Mortgage Loan Not In Default.** For each Mortgage Loan as of the purchase date, principal and interest payments must not be more than 15 days due and unpaid under the terms of the Mortgage Loan. All costs, fees and expenses incurred in making, closing, and recording the Mortgage Loan must have been paid; and there must not have been outstanding any advance of funds by Seller or by another at the request of Seller to or on behalf of Mortgagor to be used by Mortgagor for the payment of any monthly installment of principal or interest under the terms of the Mortgage Loan.

- 3.315 Escrow Requirements.** Each Mortgage Loan shall provide for the monthly collection of escrows to the extent permitted by the Real Estate Settlement Procedures Act, as amended, along with the monthly installment of interest and principal. The escrow requirements must be the equivalent of one-twelfth of the estimated annual taxes, assessments, applicable insurance premiums on the mortgaged property to be paid monthly in advance to the holder of the Mortgage Loan. The escrow shall be held in trust for the benefit of the Agency and Mortgagors in an account in a bank or trust company, savings bank, national banking institution (which may be Seller) insured to the full extent legally possible by the Federal Deposit Insurance Corporation.
- 3.316 Closing Cost Limits.** Costs, fees and charges, of whatever kind or nature which were collected from the Mortgagor and from the seller of the residential property cannot exceed \$100 plus the aggregate of (1) the actual amounts expended for continuation of abstract, title insurance, deed tax, attorney's fees, credit reports, surveys, appraiser's fees, and filing and recording fees, and other fees and charges; (2) the actual amounts paid or escrowed for taxes and insurance.
- 3.317 Title Insurance Requirements.**
- (a) Each Mortgage Loan must be covered by a title insurance policy, the benefits of which run to the Agency, on the current standard ALTA mortgage insurance form issued by a title insurer, licensed to do business in the state and qualified to provide title insurance on Mortgage Loans purchased by FHLMC and FNMA in an amount equal to the original principal balance of the Mortgage Loan. Schedule B-I of the title insurance policy must not be subject to any exceptions other than liens of taxes or assessments which are not delinquent, building restrictions or other restrictive covenants or conditions, leases or tenancies whereby rents or profits are reserved to the owner, joint driveways, sewer rights, party walls, rights-of-way or other easements, or encroachments, provided that none of the foregoing materially affect the security for the Mortgage Loan, and do not exceed the FHA Title Waiver exceptions. Schedule B-II is required on all Agency Mortgage Loans, and must not reveal any form of secondary financing (unless approved by the Agency) utilized to consummate the purchase. Copies of the documents relating to exceptions must be included.
 - (b) With regard to Mortgage Loans for condominiums, the policy must include ALTA Endorsement 4-(condominium) or the language of such must be incorporated in the body of the policy.
 - (c) With regard to Mortgage Loans for PUDs, the policy must include ALTA 5 Endorsement (Planned Unit Dev.) or the language of such be incorporated into the body of the policy.

- (d) **ALTA Endorsement 8.1 (Environmental Lien Protection)** must be included in all title policies.

3.318 **Survey Requirements.** With respect to each Mortgage Loan, Seller must obtain a plat or survey dated or redated within six months of the making of the Mortgage Loan certified by a licensed surveyor or engineer showing: (a) the exact location and dimensions of the property including the improvements located thereon, (b) the exact location of all lot and street lines, all means of access to such property, (c) the names of all avenues, streets and alleys abutting such property, (d) any encroachment on such property or any encroachment by the improvements on adjoining property, or any other defect, and (e) survey certified to borrowers, lender and title company. Survey affidavit of no change, approved by the title company will be acceptable on surveys up to 2 years old.

3.319 **Execution and Recordation of Assignment.** An assignment of each Mortgage Loan must be executed and recorded on Uniform Assignment of Mortgage Instrument (HMFA 142). Assignment should be recorded simultaneously with mortgage.

3.320 **Hazard Insurance Requirements.** The property securing each Mortgage Loan must be covered by hazard insurance meeting the following requirements.

- (a) **Scope and Amount of Coverage Required for Mortgage Loans.** Insurance coverage in the kinds and amounts prescribed in this section is required on property covered by a Mortgage Loan.

- (b) **Minimum Financial Rating of Carrier; No Assessments; Other Requirements.** Each hazard insurance policy must be written by a hazard insurance carrier which falls into a financial category as designated in Best's Key Rating Guide of B+ or better, class IV or better or Demotech, Inc. financial Rating of A (exceptional.) (The Agency will normally make an exception upon specific request where the insured is an assigned risk.) Each carrier must be specifically licensed or authorized by law to transact business in the State. Coverage required is as follows:

1. Fire and Extended Coverage Insurance shall be required in an amount at least equal to that customary in the geographical area in which the property is located. The amount of coverage shall be sufficient, except for deductibles as permitted below, so that in the event of any damage or loss of the property, coverage by the insurance shall provide the greater of: (i) compensation equal to the full amount of damage or loss; or (ii) compensation to the mortgagee under the Mortgage Loan equal to the full amount of the unpaid balance of the Mortgage Loan.

2. Such insurance must be in effect on the delivery date of the Mortgage Loan, and the expiration date of each policy must be more than six months after the delivery date. The premium on each policy shall have been paid in full by the Mortgagor and no "courtesy receipts" or other secondary financing of such premium shall be permitted.
 3. Where Seller is aware that the property is exposed to any appreciable hazard against which Fire and Extended Coverage Insurance does not afford protection, Seller shall advise the Agency of the nature of such hazard and the additional insurance coverage, if any, which Seller has obtained against such hazard. If adequate insurance has not been obtained against such hazard, the Agency may require such coverage prior to accepting the Mortgage Loan for purchase.
 4. Insurance policies shall be sufficient in amount and scope of coverage to meet the requirements of the MI.
 5. Policies containing a deductible clause up to \$500, applicable to either Fire or Extended Coverage or both, are acceptable in areas where such provisions are mandatory or customary.
 6. Each Mortgage Loan shall provide that in the event of any loss settlement on a hazard insurance policy the mortgagee shall have the option of applying the loss settlement proceeds against the principal amount of the Mortgage Loan.
 7. With regard to Mortgage Loans on Condominiums, see additional requirements under Section 3.406.
- (c) **Unacceptable Policies.** Policies are unacceptable where: (1) under the terms of the carrier's charter, by-laws or policy, contributions or assessments may be made against the Agency or the Agency's designee; or (2) contributions or assessments may be made against the owner of the property which could become a lien on the property superior to the lien of the mortgage; or (3) by the terms of the carrier's charter, by-laws or policy, loss payments are contingent upon action by the carrier's Board of Directors, policy holders, or members; or (4) the policy includes any limiting clauses (other than insurance conditions) which could prevent the Agency or the owner of the property from collecting insurance proceeds.

- (d) **Mortgagee Clause; Endorsement.** All policies of hazard insurance must contain or have attached the standard mortgagee clause customarily used in the area in which the property is located, naming the Agency as an insured. The policy must provide that the insurance carrier shall notify Servicer at least ten days in advance of the effective date of any cancellation of the policy. It is Servicer's responsibility to cause each insurance policy to be properly endorsed and to give any necessary notices of transfer in order to fully protect, under the terms of the policy and applicable law, the Agency's interest as first mortgagee. However, Seller must cause all documents to be delivered to Servicer, regardless of the manner in which the insurance policy is endorsed. Although Servicer shall cause the Agency to be named as first mortgagee, Servicer must cause Servicer's address to be used in the endorsement in lieu of the address of the Agency.
- (e) **Flood Insurance.** Sellers are responsible for and warrant compliance with the provisions of the National Flood Insurance Reform Act of 1994, whenever such provisions would be applicable to any Mortgage Loans sold to the Agency. Flood Insurance is required by Federal law if at anytime during the term of the loan the lender or servicer determines that the property is in a special flood hazard area (SFHA). If the originating lender determines that the property being financed is located in a special flood hazard area, the borrower is required to obtain flood insurance at the time of origination.
- (f) **Insurance Coverage Varying From Above Requirements.** Insurance coverage which does not meet the foregoing requirements will be considered on a case-by-case basis by the Agency upon request by Seller. The Agency may require such additional coverage as it may deem necessary in connection with any case or group of cases.

3.321

Legal Description.

- (a) **General.** The legal description as set forth in the Mortgage Title Insurance policy and other documents must match the survey, be approved by the title company, and be in one of the following basic forms:
 1. Metes and bounds;
 2. Lot and block on recorded map or plat.
- (b) **Metes and Bounds.** A metes and bounds description should comply with the following standards:

1. The beginning point should be established by a monument located at the beginning point, or by reference to a nearby monument;
2. The sides of the mortgaged property should be described by giving the distances and bearings of each. In lieu of bearings it is equally acceptable to use the interior angle method, provided that the beginning point is located on a dedicated public street line or other properly fixed line or the course of the first side can be otherwise properly fixed;
3. The distances, bearings and angles should be taken from a recent survey, or recently recertified survey, by a licensed civil engineer or registered surveyor;
4. Curved courses should be described by data including:(i) length of arc; (ii) radius of circle for the arc; (iii) chord distance and bearing;

Exception - if deemed locally adequate by prudent private institutional investors, when a curved course is part of a dedicated public street or road line, that course may be described merely by indicating the distance and direction which that course takes along the street line from the end of the previous course;

5. The legal description should be a single perimeter description of the entire plot. Division into parcels should be avoided unless a special purpose of the specific loan is served. Division would be necessary, however, if the plot is located on two sides of a public way. (It is also customary in many areas to describe an easement appurtenant to a fee parcel by using a separate description).
- (c) **Lot and Block Description.** A description composed of lots and blocks which includes reference to a recorded map or plat on which said lots and blocks are delineated is usually deemed adequate.
- (d) **Additional Acceptable Descriptions.** A description of a parcel bounded on all sides by dedicated streets or alleys can acceptably refer to the bounding lines of the streets or alleys alone.

SECTION 3.4 PROPERTY ELIGIBILITY REQUIREMENTS

3.401 Property Restrictions. No portion of the Eligible Property may be used or intended for trade, business or non-residential purposes.

- (a) The property must include only one lot, which cannot be subdivided under the current applicable zone restrictions. If there is more than one lot a letter will be required from the Township Zoning Officer stating the minimum lot size and that the property cannot be subdivided without a variance. The property must include only one building which is designed for and can reasonably be expected to be used for residential purposes. The land appurtenant to the residence must include only such land as is necessary to maintain the basic livability of the residence.
- (b) HMFA requires that the land not exceed one acre in size. Anything over one acre will require a letter from the Township Zoning Officer stating the minimum lot size and that the property cannot be subdivided without a variance.

3.402 Eligible Dwelling Types.

A residential building located in the State of New Jersey which is (i) an existing Single Family Dwelling (ii) a newly constructed Single Family Dwelling which has never been occupied; (iii) a 2-4 family dwelling that has been used as a residence for the previous five years; or (iv) a 2 family dwelling located in a Target Area that will be used for residential purposes (need not meet the five year requirement). A building or condominium unit shall not qualify as an Eligible Property if any portion is used or intended to be used for non-residential purposes unless a waiver has been granted in advance. A building in which the mortgagor cannot legally occupy a unit within sixty days of closing shall not qualify as an eligible property.

3.403 Requirements for Multiple-Unit Dwellings.

- (a) The building must have been occupied as a residence for at least five (5) years immediately preceding the closing date, provided, that a unit may have been vacant during such period if the unit was, from the time previously occupied as a residence, continuously held out for residential use and not occupied for any portion of such period on connection with a commercial or business use.

- (b) **Seller should accept Mortgage Loan applications on Multiple-Unit Dwelling properties until notified by the Agency to discontinue accepting Multiple-Unit Dwelling properties. Not more than 10% of each loan fund may be used to purchase loans in Multiple-Unit Dwellings. The Agency will track the aggregate number on such Multiple-Unit Dwelling applications and give Sellers sufficient advance warning when the 10% limit is approached.**
- (c) **A property check report is required on all existing 2-4 family Multiple-Unit Dwellings. This report must provide the following information: five year title history, indicating names of title holders and dates of title conveyances and property census tract. This report must be issued by a credit reporting company or other business enterprise engaged in the business of providing title search information.**
- (d) **Two to four unit structures. Mortgagors must be able to occupy one unit of the dwelling within 60 days of closing for the property to be eligible.**
- (e) **Target Area only, building may be a 2 family dwelling and the property need not meet the five year requirement.**
- (f) **In the state of New Jersey three to four unit buildings are subject to the Hotel and Multiple Dwelling Health and Safety Act. Properties coming under the Act must be registered with the State and are subject to a State inspection. Owners of three to four unit buildings are issued a "Green Card" as evidence that the property has passed the State inspections.**

Effective immediately, this Office's policy with respect to the insurance of three to four unit buildings will be as follows:

- 1. Lenders must show evidence that a three to four unit building has been registered with the State of New Jersey by providing the Certificate of Registration.**
- 2. Lenders must request copies of any pending violation notices issued by the State and a copy of the "Green Card" only if one exists.**

Lenders must document their files as to the basis of any determinations made concerning the existence of a "Green Card". In addition, where a "Green Card" does not exist the borrowers should be made aware that the State may require them to correct any violations noted as a result of a future State inspection.

3.404 **Acquisition Cost Limits.** The maximum acquisition cost of the property as defined in Section 3.405 below, may not exceed the amounts indicated in the applicable Term Sheet.

For purposes of this section: An existing residence is defined as a dwelling which has been previously occupied as a residence. New construction is defined as a dwelling which has recently been constructed and has never been occupied as a residence. Conversions are considered existing residences unless the structure has undergone substantial rehabilitation and received Agency approval as qualifying as new construction.

3.405 **Acquisition Cost.**

(a) Acquisition Cost is defined as the cost of acquiring a residence (which does not include property such as an appliance, a piece of furniture, a radio, etc., which under applicable law is not a fixture), from the seller as a completed residential unit and includes the following:

1. All amounts paid, either in cash or in kind, by the purchaser (or a related party or for the benefit of the purchaser) to the seller (or a related party or for the benefit of the seller) as consideration for the residence.
2. If a residence is incomplete, the reasonable cost of completing the residence whether or not the cost of completing construction is to be financed by a loan under the Mortgage Program.
3. The acquisition cost of a residence does include where a residence is purchased subject to a ground rent, the capitalized value of the ground rent. Such value shall be calculated using a discount rate equal to the yield of the bonds.

(b) The term "Acquisition Cost" does not include the following:

1. The usual and reasonable settlement or financing costs. Settlement costs include titling and transfer cost, title insurance, survey fees, or other similar costs. Financing costs include credit reference fees, legal fees, appraisal expenses, "points" which are paid by the Mortgagor or other costs of financing the residence.

However, such amounts will be excluded in determining Acquisition Cost only to the extent that the amounts do not exceed the usual and reasonable costs which would be paid by the buyer where financing is not provided under the Mortgage Program. For example, if the purchaser agrees to pay to the seller more than a pro-rate share of the property taxes, such excess shall be treated as part of the Acquisition Cost.

2. The value of services performed by the Mortgagor or members of the Mortgagor's family in completing the residence. For purposes of the preceding sentence, the family of an individual shall include only the individual's brothers and sisters (whether by whole or half blood), spouse, ancestors, and lineal descendants. Where the Mortgagor builds a home alone or with the help of family members, the Acquisition Cost includes the cost of materials provided and work performed by sub-contractors (whether or not related to the Mortgagor), but does not include the input cost of any labor actually performed by the Mortgagor or a member of the Mortgagor's family in constructing the residence. Similarly, where the Mortgagor purchases an incomplete residence the Acquisition Cost includes the cost of material and labor paid by the Mortgagor to complete the residence but does not include the input value of labor performed by the Mortgagor's family in completing the residence.
3. The cost of land which has been owned by the Mortgagor for at least two years prior to the date on which construction of the residence begins.

3.406

Requirements For Condominiums.

- (a) The Agency requires that 51% of the units in a project be under contract of sale to separate purchasers (at least 70% of which will be owner occupants) prior to purchase of any Mortgage Loan by the Agency.
- (b) The Agency will purchase Mortgage Loans up to a maximum of 50% of the units in any one phase of a project. (The Agency's Underwriting Department will be able to tell you which projects have met the 50% level.) The Agency does not approve condominium projects. It is the Seller's responsibility to review the necessary documents and sign the Condominium Warranty (HMFA 0016).
- (c) The Mortgagor must receive fee simple interest in the real estate and a pro-rate share in the common elements. All common areas and facilities (including those that are part of an umbrella association) must have been completed.

- (d) **The Seller must review the project documents and certify compliance with all warranties listed in the Condominium Warranty form. A copy of the certification must accompany the documents submitted for Prior Approval.**
- (e) **Condominium units will be subject to expanded Hazard Insurance requirements. In addition to the Master Policy carried by the Homeowner's Association, borrowers must secure coverage for all unit elements present at the time of purchase which are covered by the Mortgage as part of the unit, but not covered by the master policy. Such elements include: interior wall, floor and ceiling coverings; fixtures; appliances; cabinets; and any other elements specifically defined in the condominium documents as the unit owner's responsibility.**

Coverage can be secured as part of a Homeowner's Policy (HO-6). This policy should clearly indicate coverage provided for mortgaged property separately from personal property.

The amount of coverage required must be sufficient to restore the interior of the unit to its condition at time of purchase. The minimum acceptable coverage is \$30,000 unless documentation can be provided which places the cost of restoring the interior portion of the unit at a lower value.

The cost of the additional insurance is to be included when calculating the monthly housing expense ratio. In addition, lenders must require that the first year premium is paid at the time of closing and escrow the appropriate funds at closing.

- (f) **Seller warrants the applicable insurance coverage specified below has been obtained.**
 - (i) **A multi-peril type policy is required covering the entire condominium project providing minimum fire and extended coverage and all other coverage in the kinds and amounts commonly required by private institutional mortgage investors for projects similar in construction, location and use on a replacement cost basis in an amount not less than one hundred percent (100%) of the insurable value (based upon replacement cost). If there is a steam boiler in operation in connection with the mortgaged premises, there must be in force boiler explosion insurance evidenced by the standard form of boiler and machinery insurance policy and providing as a minimum, \$100,000 per accident per location.**

Individual unit owners are required to insure all fixtures and all privately owned real property within the interior of their unit if

not covered by the master policy. Coverage must be sufficient to reconstruct any interior damage sustained which is outside the master policy for the project's common elements.

If the condominium project is located in an area identified by the Secretary of Housing and Urban Development as an area having special flood hazards, a "blanket" policy of flood insurance on the condominium project must be maintained in the amount of the aggregate of the outstanding principal balances of the mortgage loans on the condominium units comprising the condominium project or the maximum limit of coverage available under National Flood Insurance Act of 1968, as amended, whichever is less.

The name of the insured under each required policy must be stated in form and substance similar to the following: "Association of Owners of the Condominium for use and benefit of the individual owners: (designated by name, if required).

- (ii) Each such policy must contain the standard mortgagee clause which must be endorsed to provide that any proceeds shall be paid to the Association of Owners of the Condominium for the use of and benefit of mortgagees as their interest may appear, or must be otherwise endorsed to fully protect the Agency's interest.**
- (iii) The association of owners must have fidelity coverage against dishonest acts on the part of directors, managers, trustees, employees or volunteers responsible for handling funds belonging to or administered by the condominium association of owners if the condominium project has more than five (5) units.**

The Fidelity Bond or insurance must name the condominium association of owners as the named insured and shall be written in an amount sufficient to provide protection which is in no event less than the sum of three months assessments on all units in the project plus the association's reserve funds. In connection with such coverage, an appropriate endorsement to the policy to cover any persons who serve without compensation shall be added if the policy would not otherwise cover volunteers.

- (iv) The association of owners must have comprehensive policy of public liability insurance covering all of the common elements, commercial spaces and public ways in the condominium project. Such insurance policy shall contain a "severability of interest" endorsement which shall preclude the insurer from denying the claim of a condominium unit owner because of**

negligent acts of the condominium association of owners or other unit owners. The scope of coverage must include all other coverage in the kinds and amounts required by private institutional mortgage investors for projects similar in construction, location and use. Liability coverage shall be for at least \$1,000,000 per occurrence, for personal injury and/or property damage.

The Agency will consider waivers to the condominium requirements (a) through (d) for public purpose projects.

3.407

Pre-Manufactured and Manufactured Housing.

- (a) Pre-manufactured housing which meets the BOCA Code and the New Jersey Uniform Construction Code, and either is completed at the factory and assembled on site or roughed in at the factory and assembled and finished on site is eligible under the Agency's standard underwriting criteria.

To the extent that the Agency has made a specific allocation of funds to finance Mortgage Loans for development projects, including condominium projects, no more than the greater of 25 units or 50% of the units in any such development, including condominium projects, may be financed with Mortgage Loans, except that up to 10% of the aggregate principal amount of Mortgage Loans may be used to finance over 50% of the units in developments of over 50 units which are designed to meet the fair share housing plan of a municipality within the meaning of the Fair Housing Act (N.J.S.A.

52:27D-301 et seq.), provided that no such development contains more than 125 units. Where developments are phased, the limitations set forth in this paragraph shall apply to each phase. The Agency, however, may exceed the aforementioned 10% limitation and use up to 25% of the aggregate principal amount of Mortgage Loans to meet the fair share low and moderate income housing obligations of developing communities as long as the developments represented by the aggregate amount of the Mortgage Loans in excess of said 10% have project approval by Mortgage Insurers or other reviewers approved by MBIA Corp. or so long as each development contains 25 or fewer units.

3.409

New Construction, Mortgagor Built Homes. A Mortgage Loan may be provided for a single family dwelling which is newly constructed on behalf of the Mortgagor.

If the Mortgagor owns the land free and clear, the Mortgage Loan may not exceed the cost of constructing the residence.

If the land has been purchased under a short term (less than 24 months) loan, the Mortgage Loan may incorporate the balance of the short-term loan as well as the cost of constructing the residence up to the maximum loan to value ratio of 97 percent or such greater amount as may be permitted by the Agency and the mortgage insurer. (This to, would pertain to Mortgagor build Pre-manufactured and Manufactured Housing.)

For purposes of the Acquisition Cost limits, if the land was purchased within the two years of date construction on the residence begins, the cost of the land must be included in the total Acquisition Cost.

3.410 New Construction Fees/Interest. In the case of a Mortgage Loan for a newly-constructed property, the Seller shall warrant that the rate of interest and/or fees being charged to the contractor or developer for the construction loan are usual and customary and are not in excess of the rate of interest or fees that would have been charged if the permanent mortgage financing was being provided through conventional lending sources other than the Agency.

3.411 Termite Inspection. When a termite inspection is required, the report should be made based on the following criteria:

- (a) NPCA-1, Wood Destroying Insect Infestation Inspection Report must be used on ALL loans for sales contracts signed on or after October 1, 1995.**
- (b) The certification can be no older than six (6) months prior to the loan closing.**

PART IV MORTGAGE LOAN REVIEW AND PURCHASE REQUIREMENTS**SECTION 4.1 PRIOR APPROVAL**

4.101 The Agency Review. In order that the Agency may make a determination that a prospective Mortgage Loan complies with all of the requirements of the Tax Code, Sellers will be required to submit certain documentation to the Agency for Prior Approval.

After review of the requested documentation, the Agency will advise Seller of loan eligibility by issuing a commitment. All terms and conditions of this commitment must be strictly adhered to. SECTION 4.4 POSSESSION OF MORTGAGE LOAN FILE**4.401 Possession by Seller/Servicer**

The lender is responsible for establishing and maintaining individual mortgage files and for maintaining accurate accounting and mortgagor payment records. The Agency has the right to examine, at any reasonable time, any and all records that pertain to mortgages we hold in our portfolio, any and all accounting reports associated with those mortgages and mortgagor remittances, and any other reports and documentation that we consider necessary to assure that the lender is in compliance with our requirements.

Mortgage files and records include the original individual mortgage files, permanent mortgage account records, and accounting system reports that are sent to the Agency. The lender must establish an individual mortgage file when it originates a mortgage. If the Seller does not service the mortgage, the Seller must transfer the ORIGINAL file to the mortgage servicer to assure that the servicer will have complete information about the mortgage in its records.

The mortgage servicer should use the individual mortgage file established at the time of origination to accumulate other pertinent servicing and liquidation information - such as property inspection reports, copies of delinquency repayment plans, documents related to insurance loss settlements, foreclosure notices, etc.

4.402 Possession By Document Custodian

The lender must forward the following final documents to a FNMA approved custodian. The custodian must meet all standards set by FNMA for storage of final documents.

1. Original signed Note
2. Mortgage Insurance Certificate, if applicable
3. VA Guaranty Certificate, if applicable
4. Loan Note Guarantee, FmHA form 1980-17, if applicable

The lender must pay all compensation to the custodian for the performance of its duties. The Agency must be under no obligation to pay any compensation to the document custodian.

Lender must complete Custodian Certification, HMFA 301, for all loans.

4.403

Access to Records

On our written request, the lender must deliver all mortgage records and documents to us or to whomever we designate. Each file must be clearly identified. If the lender has microfilmed or otherwise condensed any of the records, it must reproduce them at its own expense. The Agency will not execute any trust receipts for documents it requests and will not participate in, or provide compensation for, their delivery.

When a lender does not respond to our request to produce any documents or other records that we require it to maintain, we will presume that it did not produce the requested records because they would confirm that the lender did not take certain actions that we require. If that is not the case, the lender must provide a reasonable explanation for its failure to produce the records and, if appropriate, offer evidence that any particular requirement we are concerned about was satisfied. If the lender fails to provide a reasonable explanation or any evidence showing that the requirement was satisfied, we can take any action that is authorized under the Contract or our guides for the lender's breach of our requirements.

If we have to take legal action to obtain these records, the lender will be liable for any legal fees, costs, and related expenses that we incur in enforcing our right of access to the records - unless it is determined that we had no legal right of access to them.

V. DELEGATED UNDERWRITING**SECTION 5.1 LENDER ELIGIBILITY REQUIREMENTS**

Lenders who have participated in the Agency's bond mortgage programs for two full program years or have on staff an approved Delegated Underwriter will be eligible to apply for Delegated Underwriting designation.

To be an eligible Delegated Underwriter for conventional loans, lender must be an approved Fannie Mae or Freddie Mac seller/servicer.

- (a) Underwriter must demonstrate sufficient knowledge of the Agency's programs to effectively underwrite. Underwriter will be required to submit a minimum of ten loans to the Agency for approval. Approval will be based on the Agency's concurrence that the decision reached by the underwriter on the 10 prior approval loans was correct and that there were no significant conditions.**
- (b) Lenders must designate at least one full-time underwriter to review and approve Agency loans. The underwriter must be a reliable and responsible professional skilled in mortgage evaluation with at least 3 years recent experience reviewing both credit applications and property appraisals associated with one to four family dwellings. The designated underwriter must submit a resume to the Agency for review and be approved by the Agency.**
- (c) The designated underwriter must complete training with Agency staff prior to being approved. The Agency may waive this requirement when the lender can demonstrate that the assigned underwriter has sufficient skill and knowledge of the Agency's program requirements.**
- (d) Once an underwriter has received Delegated Underwriting approval, the Agency will continue to review loan files according to the following schedule after closing:**

Complete review of the first ten loans completed under the delegated underwriting approval.

Review of 50% of loans 11 through 30.

Review of 25% of loans 31 through 50.

Review of 10% of all loans above 50.

Reduction in the number of loans reviewed will be based on the underwriters performance. If Agency staff determines that loans have not been underwritten in accordance with the Agency's guidelines or if loan files are incomplete or the documents in the loan file are outdated, delegated underwriting approval will be revoked

To be an eligible Delegated Underwriter for FHA loans, lender must be an FHA Direct Endorsement lender and for VA loans, lender must be a VA Supervised Lender.

- (a) Agency will accept underwriting determination made by FHA/VA approved underwriting and credit analyst. Failure to provide the Agency with an MIC within the time specified in the Seller's Guide will result in the loan being returned to the lender for repurchase.
- (b) The designated underwriter must complete training with Agency staff prior to the lender receiving Delegated Underwriting approval. The Agency may waive this requirement when the lender can demonstrate that the assigned underwriter has sufficient skill and knowledge of the Agency's program requirements.

These loans (FHA/VA) will be counted in with the conventional loans to determine underwriters acceptability on the volume and quality in determining their Delegated Underwriting approval.

SECTION 5.2 DELEGATED UNDERWRITING LOAN SUBMISSION

Loans submitted for tax compliance prior to closing will be reviewed for tax and program compliance. This means the loan complies with all requirements of the Internal Revenue Code and Treasury Regulations regarding mortgages funded with Mortgage Revenue Bonds. These requirements include but are not limited to: income limits, purchase price limits, first time homebuyer status (must show past three years tax returns), target area status, use of Agency forms, limited appraisal review for number of lots, size of property and age of property for 2 to 4 units.

If approved, you will receive a "Letter of Tax Compliance Acceptability" rather than a commitment letter. If there are any conditions on the "Letter", you are required to meet them before submitting for purchase. Any conditions not cleared will result in our not purchasing the loan.

Loans submitted for Tax Compliance after being closed will be reviewed the same as above, however, if there are conditions on the loan, you will have to satisfy them within 15 days. If after 10 days the conditions are not satisfied, you will receive a letter alerting you to this. If after 15 days you have not satisfied the conditions, the loan will not be purchased and will be returned.
